August 29, 2026

Mr. Jeet Mehta  
HR Manager  
Quantiva Insights Pvt. Ltd.  
Ahmedabad, Gujarat

**Subject: Application for the Position of Data Scientist**

Dear Mr. Mehta,

I would like to apply for the Data Scientist role at Quantiva Insights Pvt. Ltd., which I saw posted on your careers page. I have worked with Python, SQL, and machine learning tools for over a year, and I enjoy solving real business problems with data.

During my recent internship at a fintech startup, I built ChurnStop, a simple model that predicted which customers were likely to cancel their subscription. I also worked on TrafficEye, a small tool that used past traffic data to predict busy hours for a delivery company. Both projects taught me how to clean messy data, build models, and explain results in plain language to non-technical teams.

I like Quantiva Insights because of the way it focuses on practical, easy-to-use data tools for clients. I have attached my resume with more details about my work. I would be glad to talk more about how I can help your team.

Thank you for taking the time to review my application.

Sincerely,

Khushi Patel

## Portfolio Submission Letter

August 20, 2026

Mr. dhruv shah  
HR Manager  
Quantiva Insights Pvt. Ltd.  
Ahmedabad, Gujarat

**Subject: Portfolio Submission — Data Scientist Application**

Dear Mr. shah,

As a follow-up to my application, I want to share a short list of projects I have built so you can see my work more clearly.

ChurnStop looks at customer activity and flags people who might leave a subscription service, so the business can reach out early. TrafficEye studies past delivery data to guess which hours will be busiest, so a company can plan staff better. SalesLens is a simple dashboard that shows a store's sales trends and predicts next month's sales using past numbers. I also made MedAlert, a small project that checks patient data and flags people who may need a follow-up visit, and ReviewSense, which reads customer reviews and sorts them as positive or negative.

Each of these projects started with messy, real-world data. I cleaned it, built a simple model, and turned the results into a chart or dashboard that is easy to read. Links to the code and demos are in my resume.

I would be happy to show you any of these projects in more detail if we meet.

Sincerely,

Khushi Patel

## Letter of Recommendation

Clarity Analytics Pvt. Ltd.  
Ahmedabad, Gujarat  
Rohan Verma, Senior Data Science Manager  
rohan.verma@clarityanalytics.example.com

June 22, 2026

To Whom It May Concern

**Subject: Letter of Recommendation for Ms. Khushi Patel**

Dear Sir/Madam,

I am happy to write this letter for Ms. Khushi Patel, who worked on our data team at Clarity Analytics as a Data Scientist. In the time she worked with us, she was always careful, curious, and easy to work with.

Khushi is good with Python, SQL, and basic machine learning tools. She helped us clean up messy datasets, build simple prediction models, and turn them into reports our clients could actually understand. She met her deadlines and asked good questions when something was unclear.

She also got along well with the rest of the team. She was quick to help a co-worker who was stuck, and she picked up new tools without much guidance.

I recommend Khushi for any data role that needs someone reliable, sharp, and easy to work with. Feel free to reach out if you would like to know more.

Sincerely,

Rohan Verma  
Senior Data Science Manager, Clarity Analytics Pvt. Ltd.

# Experience Certificate

Clarity Analytics Pvt. Ltd.  
Ahmedabad, Gujarat  
Human Resources Department

september 15, 2026

To Whom It May Concern

**Subject: Employment Verification / Experience Certificate — Ms. Khushi Patel**

Dear Sir/Madam,

This letter confirms that Ms. Khushi Patel worked at Clarity Analytics Pvt. Ltd. as a Data Scientist starting in February 2025. Her main work included cleaning data, building simple prediction models, and creating easy-to-read reports for both our internal team and outside clients.

During her time here, she was dependable and easy to work with, and she always finished her work on time. We did not have any concerns about her conduct or performance.

This letter is given at her request to confirm her work history. Please contact our HR department if you need any more details.

Sincerely,

Meera Iyer  
HR Manager, Clarity Analytics Pvt. Ltd.

## Letter of Interest

June 5, 2026

Ms. Neha Kapoor  
Talent Acquisition Lead  
Meridian Analytics Group  
Pune Maharashtra

**Subject: Expression of Interest — Data Scientist Opportunities**

Dear Ms. Kapoor,

I am reaching out because I am interested in working as a Data Scientist at Meridian Analytics Group, even though I am not sure if you have an open role right now.

I have worked with Python, SQL, and machine learning for a bit over a year, and I have built a few small projects, like a tool that predicts customer churn and another that forecasts busy hours for deliveries. I like taking messy data and turning it into something a team can actually use.

If you do not have an opening that matches my background right now, I would appreciate it if you could keep my resume on file. I have attached it along with a short list of my projects.

Thank you for your time.

Sincerely,

Khushi Patel

## Interview Follow-Up Letter

September 2, 2026

Mr. Karan Mehta  
HR Manager  
Quantiva Insights Pvt. Ltd.  
Ahmedabad, Gujarat

**Subject: Thank You — Data Scientist Interview Follow-Up**

Dear Mr. Mehta,

Thank you for meeting with me on August 28, 2026, to talk about the Data Scientist role at Quantiva Insights. I enjoyed the conversation and learning more about the kind of problems your team works on.

I especially liked hearing how your team turns raw data into dashboards that non-technical teams can use. That matches the kind of work I enjoy most, and I think my experience with churn and forecasting projects would fit in well.

I just wanted to check in and see if you need any more information from me. Please let me know if there is anything else I can share.

Thanks again for your time. I hope to hear from you soon.

Sincerely,

Khushi Patel

## Job Offer Acceptance Letter

September 8, 2026

Mr. Karan patel  
HR Manager  
Quantiva Insights Pvt. Ltd.  
Ahmedabad, Gujarat

**Subject: Acceptance of Offer — Data Scientist Position**

Dear Mr.patel,

Thank you for the offer to join Quantiva Insights Pvt. Ltd. as a Data Scientist. I am happy to accept the offer, along with the pay, the start date of October 6, 2026, and the reporting structure we discussed.

I am looking forward to joining the team and getting started on real projects. I appreciate the time everyone took during the interviews and the trust you have placed in me.

Please let me know if there is any paperwork or other steps I need to complete before I start. I am looking forward to working with the team.

Sincerely,

Khushi Patel

## Job Offer Declination Letter

September 9, 2026

Ms. Sanya shiekh  
HR Business Partner  
Pinnacle Data Systems  
Pune, Maharashtra

**Subject: Declining Offer — Data Scientist Position**

Dear Ms. Sheikh ,

Thank you for offering me the Data Scientist position at Pinnacle Data Systems. I really appreciate the time your team spent with me during the interviews.

After thinking it over, I have decided to take a different offer that fits my career plans a little better right now. So, I need to turn down this offer.

I enjoyed getting to know your team and learning about the work you do. I hope we get the chance to work together at some point in the future. Thanks again, and I wish your team continued success.

Sincerely,

Khushi Patel

# Leave of Absence Request Letter

Khushi Patel  
Ahmedabad, Gujarat, India

khushi.patel.ds@gmail.com

April 14, 2026

Mr. Rohan Verma  
Senior Data Science Manager  
Clarity Analytics Pvt. Ltd.  
Ahmedabad, Gujarat

**Subject: Request for Leave of Absence**

Dear Mr. Verma,

I would like to request time off from April 21 to April 25, 2026 — five working days — because of a family matter I need to take care of.

I will make sure my current tasks, including the model update for our client, are either finished or handed off before I leave. I can also check my email for anything urgent during this time, if needed.

Please let me know if this is okay, and I am happy to talk through the handover in more detail. Thank you for understanding.

Sincerely,

Khushi Patel

# Resignation Letter

Khushi Patel  
Ahmedabad, Gujarat, India

khushi.patel.ds@gmail.com

September 8, 2026

Mr. Rohan parekh  
Senior Data Science Manager  
Clarity Analytics Pvt. Ltd.  
Ahmedabad, Gujarat

## **Subject: Resignation from the Position of Data Scientist**

Dear Mr. parekh ,

I am writing to let you know that I am resigning from my position as Data Scientist at Clarity Analytics Pvt. Ltd. My last working day will be October 3, 2026, based on my notice period.

I have accepted another opportunity that fits my career goals better at this stage. I want to thank you and the team for everything I learned here — the work on models, data analysis, and reporting has taught me a lot.

I will do my best to make the transition smooth, whether that means training someone new or writing down notes on my current projects. Please let me know how I can help with the handover.

Thank you again for the opportunity. I hope we stay in touch.

Sincerely,

Khushi Patel
